Subscription, \$1.50 per year in advance

4 GENERATIONS REPRESENTED AT BIRTHDAY

At the recent 80th birthday celebration of Mrs. Emma Schmidt of Mokena, four generations were represented as shown in the above picture. Those shown besides Mrs. Schmidt are: Wm. Schmidt, Mrs. James McClaughry, Miss Marion McClaughry.

Orland Legion Unit Meets

The regular meeting of the Orland Park Unit No. 526, American Legion Auxiliary met Friday January 7 in the Legion hall. Fifteen members and guests were present, guests being, Mrs. Vivian Ingle, 8th district director of Harvey; Mrs. Ruth Laperriere of Hazel Crest, past district director and present district Child Welfare chairman; Mrs. Francis Rowden of Tinley Park, department hospital chairman in charge of Auxiliary work at the convalescent center in Orland and Mrs. Eleanor Schroeder, district membership chairman. These officers explained the work being done by their respective departments and Mrs. Ingle gave detailed information on the proper procedure in the functioning of a Unit.

Routine business was followed by light refreshments. The next meeting will be held in February and an invitation is extended to all eligible women in the community to come.

Mokena Jail Closed to Hoboes

Hoboes have worn out their welcome in the Mokena jail. They have been in the habit of coming here in groups of six to eight. They did their washing in the jail room and had a comfortable fire. The wayfarers of the road kept coming in ever increasing numbers until finally August Hentsch custodian of the hall put up a sign on the jail door reading "Closed."

New Basketball League Formed

A new league has been organized consisting of six teams which are: Tinley Park, Mokena, Hazelcrest, Manhattan and Beecher and is called the Tinley Park Sunday League. Games will be played in Tinley Park every Sunday afternoon starting at 1:30 p. m. A public address system belonging to Kenneth Olson of Tinley Park has been installed for use every Sunday creating more interest and making the games seem like professional games. Music is played between games and at each half.

The games are played in 20 minutes halves. A small admission fee is charged. The referees, Wetmore and Dehner are from Harvey. There will be 3 games Sunday, January 15th: Tinley vs. Orland, Mokena vs. Hazelcrest, Manhattan vs. Beecher. The starting lineup will be:

TINLEY PARK	ORLAND
Gotham, F	Uthe, F
Lehman, F	Nicholai, F
Nielsen, C	Steinhagen, C
Klepper, G	Steinmetz, G
Schuldt, G	Hieting, G
MOKENA	HAZELCREST
E. Walsh, F	Holt, F
Jungles, F	Schonning, F
R. Walsh, C	Kester, C
Lauffer, G	Wall, G
Cappel, G	Melton, G
MANHATTAN	BEECHER
Rogers, F	Meyer, F
Harris, C	Bock, F
Murrie, C	Wehmhoefer, C
Hedburg, G	Oldenburg, G
McHugh, G	Stadt, G

Come out and cheer your team to victory.

Our boys basketball team traveled 120 miles south to Wynnet, Illinois Tuesday night for a game which proved to be a rough and tumble game. Our boys lost by a small score but perhaps that was because there was no cheering section from Tinley to spur them on to victory. Come one, come all to the basketball games in Tinley. Watch for further dates.

The Hys Have It

The Farm, Jan. 11, 1939.

Dear Hy:
Well, you know I was out your way looking for a calf today and dropped in to see you but I found you were out for some reason. So I thought I would write and let you know that I was unsuccessful, but I was much impressed by what I learned while in your little town of Mokena. You know, I rode around town and noticed that you are building some new houses. It strikes me that good times are here again for people to be able to buy lots in Mokena at the high prices they have always held them at, let alone build, but it might be for some other reason than it looks for some of the young people have told me that they could not buy lots to build on, they had to inherit them. This was not the case when I was a boy. They tried to get us to settle in our home town and give us value for what we paid for.

Talked to some of the big punkins there and, Kid, I never saw people that take themselves so serious. You would think that the world was right on their shoulders. It might have been caused from New Year's resolutions that their wives made them make and they were just waiting for some good excuse to break.

By cracky, the only smiles I saw all day was on a couple of kids coming home from school. I suppose they were boy scouts and had done their good deed that day so they could go skating.

Anyhow, I had a good shave on the corner and that Glory water I was touched off with caused me some explaining, but I finally got your Aunt to see it in the right way, so it was not such a bad day.

Going out to see Zeke tomorrow and trade for that belted sow of his. Wish you could go along.

Your Uncle, HY.
P.S.—Drop me a line next week and let me know how your "Ma" 's gettin' along with that new fangled scrub-brush that your "Paw" give her. Aint he considerate, tho.
UNCLE HY.

Will Sponsor Card Party

The Mokena Camp of Royal Neighbors, will sponsor a card and bunco party for their members and their families and for the members of the Mokena Modern Woodmen and their families to be held in the Mokena public school auditorium on the evening of Thursday January 26 at 8 p. m. A small fee will be charged.

Former Pastor Writes of New Kansas Charge

Rev. and Mrs. Chas. Knight, recent pastor of the Mokena Methodist church have written an interesting letter to Mokena friends, relative to their new home at Pomona, Kansas. They have become settled in the parsonage of the new pastorate and have a very nice church there.

Rev. Knight also has charge of a small country church four miles distant, where he preaches at 10 o'clock on Sunday mornings and at 11 o'clock at Pomona.

Rev. Knight writes that the one thing he misses, is the newspaper, there being no newspaper in Pomona. He says he really feels lost, for he thinks that the paper is one of the finest instruments to help in church work.

He also writes that people of a small western town are very sociable. They recently held a reception for their new pastor and his wife and presented them with a large stock of groceries. There was a pot luck supper which Rev. Knight declares that he doesn't think that he had ever seen so much food in one place before.

Chas. T. Cooper Heads New Lenox Insurance Co.

The New Lenox Mutual Fire Insurance Company held their 42nd annual meeting Tuesday in the New Lenox State Bank.

Three stockholders were elected for a term of three years as follows: H. B. Reed, H. W. Gougar and Healey Alexander.

Directors for two years are: James McGrath, Louis Eberhardt, Ernest Oram. For one year term are: Chas. Cooper, E. J. McLaughlin and G. W. Adelman.

The officers are: Chas. T. Cooper, president; E. J. McLaughlin, Vice-president; Glenn Sprock, Secretary and Ernest Oram, Treasurer.

To Hold Reception For New Pastor

On Friday, January 20th at 8 p. m. a reception will be held at the Mokena M. E. church for the new pastor. All members and friends are cordially invited.

Master of Ceremonies New Lenox Amateur Show January 19-20

The New Lenox band Association is preparing to stage an amateur night of Will county at the New Lenox school auditorium on the nights of Jan. 19 and 20. Amateur talent from all over the county is eligible and is invited to take part in this annual event. Anyone wishing to appear on this program please notify James Gurley, principal of the New Lenox public school.

Jimmy Hart of Joliet well known professional Master of Ceremonies, and who has pleased many audiences in that capacity, has been engaged by the New Lenox Band to have charge of their Amateur programs. He will be assisted by the also well known Jack Madden, Joliet who has earned for himself the title, "Uncrowned King of Comics," plus feature acts from the Joliet Conservatory of Music, Miss Bernadette Glade, lovely young Manhattan nymph and Miss Cappie Davis Romano.

The big surprise of the show will be furnished by Mr. Geo. Allen, who will send with his compliments, "The Three Little SQUIRTS", trio of tiny tots whose abilities will amaze and delight.

As in Mokena, Jimmy Hart will direct the opening night show and to assure patrons of a really new entertainment, will turn the reigns over to Jack Madden the second night.

Dont forget to hear Jimmy over WCFL Sunday night between 9 and 10 and dont miss his "Three Little Squirts" at the New Lenox school gym on Thursday evening January 19.

The proceeds of this show are to be used to purchase additional equipment for the New Lenox band, which now has a personnel of 65 players. The plan is, to equip the band for symphonic instrumentalations which will enable them to take part in this year's band contests.

4-H Club Holds Organization Meet

The New Lenox-Frankfort 4-H Club held their organization meeting in the Francis school January 10.

The meeting was opened with the 4-H pledge. Plans for projects for the ensuing year were made. A nominating committee of three, namely: Wm. Abbe, Jeanette Eisenbrandt, and Joe Bruns decided on the following as officers of the club: President, Chester Ebert; Vice president, Harry Yunker; Secretary-Treasurer, Howard Strassenberg; Reporter, Mary Catherine Marti; Recreational Chairman, Dorothea Eisenbrandt.

Wm. Abbe gave a report on the honor roll banquet held in the Ottawa Street M. E. Church in Joliet. Miss Dorothea Eisenbrandt gave an interesting talk on her trip thru the Bowman Dairy Plant in Chicago.

Orland to Consider Hall Project

At a meeting of the Orland Park village board Monday evening, the matter of securing PWA Community Hall project was the chief topic of discussion. The village is greatly in need of such a building and Mayor Wm. Kollman is to appoint a committee of seven members who are to investigate the possibilities of securing the project mentioned and to report to the village board at the next meeting.

SUE WABASH RAILROAD FOR \$50,000 DAMAGES

Wm. Keltz of Joliet has brought a personal injury suit of \$50,000 in behalf of his two sons, Wm. Jr., and Robert, against the Wabash Railroad, each of whom ask for \$20,000 damages for injuries received when a Wabash train allegedly struck their automobile at a crossing near New Lenox on July 15, 1935.

Keltz is asking for \$10,000 for expenses and loss of services. The case is being heard in the Circuit court of Will County before Judge Claude N. Saum.

Tinley RNA Elect Officers

The Tinley Park Royal Neighbors held their social meeting, Tuesday, January 10th with 47 members present. The serving committee, Ruth Bacon, Bernetta Wannamacher, Thelma Crist, and Teena Bockstaler served refreshments consisting of sandwiches, cup cakes and coffee. Bunco was played later. The new officers for 1939 for the Tinley camp are:

Oracle, Helen Chapman; past oracle, Anna Mesenbrink; vice-oracle, Anna Clemens; chancellor, Minnie Rice; recorder, Anna Hopman; receiver, Ethel Wannamaker; marshal, Margaret Miller; assistant marshal, Irene Barth; inner sentinel, Matilda Steinhagen; outer sentinel, Pauline Snyder; flag bearer, Alice Powers; faith, Ruth Frietrag; courage, Irene Brehme; modesty, Gertrude Jacobs; endurance, Helen Johnston; unselfishness, Dorothy Aikins; manager 3 year term, Deana Hansen; musician, Elizabeth Andres; juvenile director, Ruth Bacon; capt. degree staff, Nellie Ann Mesenbrink. Installation of officers will be held Jan. 24th with Esther Stockman as the installing officer and Nellie Ann Mesenbrink as Ceremonial Marshall.

ATTENTION Juvenile Mothers: Please be sure to send your juveniles to the next meeting Saturday Jan. 14 at Min Rice's home.

Will Open Studio In Tinley Park

Mrs. Thyra M. Zobac, a teacher of dramatic art and public speaking for several years in Chicago and who with her husband moved to Tinley Park a few years ago, has announced the opening of a studio in her home at 6555 W. 175th street.

Mrs. Zobac is also well known as a director of plays, pageants and dramatic cantatas. She is available as a dramatic reader for church, lodge or club programs and will go to nearby towns to teach or conduct classes. Her telephone number in Tinley Park is 84-J.

Masked Ball In Tinley Saturday

The annual prize masquerade of the Tinley Park Fire Department will be held this Saturday night in the Saenger hall in Tinley Park.

Mokena Bank Officers Re-elected

The annual meeting of the stock holders of the Mokena State Bank was held Wednesday. Otto Bartels, cashier, made his yearly report, which was very satisfactory.

The election of officers resulted in the following: President, Mrs. Rose Moriarty; Vice president, Edward Martie; Cashier, Otto Bartels; Assistant cashier, Everett J. Cooper; Stenographer and Bookkeeper, Lydia Baudry. The directors of this bank are: Rose Moriarty, Edw. Martie, O. A. Bartels, Emil P. Krapp and Geo. C. Volck.

Scout Dinner To Be Held at Tinley

The first annual meeting of the Indian Trail district of Boy scouts, scout leaders and citizens of the communities comprising the districts namely, Bremen, Orland, Frankfort, and Green Garden townships will be held in the Tinley Park M. E. church parlors Thursday evening, Jan. 19 at 7 p. m. A dinner will be served following which an election of district officers for 1939 will be held.

All interested in scouting work are especially invited to hear about the progress which has been made in Indian Trail district. Everyone will have an opportunity to get acquainted with those who have had charge of scouting activities. Troop or pack committee chairmen are asked to contact other members of their group committee. Also to send reservations for dinner no later than Tuesday January 17. A special attendance award will be given to each group or pack having six or more adults (Troup committeemen, scout masters and parents) present.

Son of Former Orland Bank Officer Named Director

The stock holders of the Orland State Bank held their annual meeting Monday morning. Geo. E. Gee, cashier of the bank made his annual report showing that the bank had a very successful year and their earnings showed an increase over those of the previous year.

The stock holders decided not to declare a large dividend and voted a one percent dividend on the shares of stock held by them. The balance being used in charge-offs and placed in the reserve fund. The stock holders felt that it is more advisable to have a substantial reserve account so as to cope with any emergencies that might arise. If business conditions continue on the upward trend and the earnings of the bank continue to increase, then a substantial dividend will be declared.

Elmer Daniels, son of the late Louis P. Daniels, former Vice president of the Orland State Bank was added to the list of the bank directors. The officers of the bank remain as follows: President, Wm. T. Beagley; Geo. E. Gee, Cashier and M. A. Strand, assistant cashier.

To Sponsor Movies At Marley

The Men's Brotherhood of the Marley church will sponsor sound motion pictures at the church Friday night, Jan. 20. Arrangements have been made by the men's group for 2 shows beginning at 7:30 p. m. and at 9:30 p. m. Watch next weeks issue for ad giving titles of pictures to be shown. Everyone is cordially invited to attend.

ETHEL LAUFFER MOKENA MARRIED IN MINOOKA

Miss Ethel Lauffer, daughter of Mr. and Mrs. Wm. Lauffer of Mokena was united in marriage to Walter Wynne, son of Thomas Wynne of Troy, Tuesday, Jan. 10 at 8 o'clock in St. Mary's Catholic church in Minooka, Minn. and sister-in-law Bernard Wynne, brother and sister-in-law of the bridegroom attended the couple. The bride was becomingly gowned in wine colored velvet with matching accessories. Mr. and Mrs. Wynne will reside with the bridegroom's father in Troy.

Frankfort Bank Declares Dividend

The Frankfort State Bank has declared a 6 percent dividend. A meeting of the stockholders and the annual election of officers will be held soon.

Beware Today Is Friday the 13th!

Beware today! It is Friday the 13th. Watch out for black cats; do not walk under ladders and obey all the other superstitious cautions against the evil of the day.

Jan. 25—Carl Ehlers, Dairy Sale, Green Garden.

Farmers find this Bank a Friend . . .

The FARMER today needs a good bank almost as much as he needs a barn, silo or a windmill.

For years this Bank has tried to be a real friend to the farmers of this section. We are familiar with the people and the country around here. We are interested in doing all we can to promote farm prosperity.

We invite you to use our banking facilities as a help to greater security and increased profits.

Bad Luck in Double Doses

Picture Parade

Friday, January 13, is a hoodoo for some people. But Bob Ryerson, Chicago lad, was 13 on Friday the 13th so he defied the jinx by inviting 13 friends to eat his "13" cake.

Above: New York State Trooper J. F. Keating uses 13 on his motorbike plates and Conservation Commissioner Lithgow Osborne not only has 13 on his auto plates but 13 for his sailboat number and 13 on his office door. Below: Barbara Kent of the films, not at all superstitious, nevertheless decorates her hand-bag with a rabbit's foot.

Breaking mirrors is supposed to be bad luck, but these two Toledo belles wouldn't be worried about that, as they teeter-totter on, of all things, a pane of mirror glass! This is a new kind of heat-tempered glass scientists call tuf-flex, which can withstand a much greater strain than this.

Above Left: Combining sophistication and non-superstition, this wedding trio of bridegroom, rector and bride put finishing touches on a Friday the 13th wedding by lighting up, three on a match. Right: In the heart of New York's Times Square, center of superstition, big city folks carefully avoid walking under ladders.

Over in London they defy superstition, too. These members of the Thirteenth club haven't raised their umbrellas indoors as part of any air-raid precautions, but merely to show they don't give a fig for Old Man Bad Luck. Just the same, watch your step on Friday the 13th!

A cat back stage during rehearsal spells doom for a play.

CHAPTER XII—Continued

"Don't," screamed Herrick. "How dare you? When you apologize, I want to kick myself and burst into tears. If you must wear your sheep's skin, do: we all know it comes off. But for you to bleat is indecent. . . . Oh, yes, I can see you laughing, but that's because you don't understand. We're cast in two different molds. We come, I see, you conquer—I can't put it better than that. And I warn you, my simple serpent, I'm not going to let you go. You may take a Duchess' name and marry the Countess of Brief, but I knew you before they did and I'm not going to give them place. And when I change my name, as one day I shall—it'll mean that you'll have three houses, instead of two."

And there you have John Herrick, sterling, efficient, adroit, with a glorious sense of humor and the heart of a little child. His way with all was wonderful. Duchess, steward and scullion—he was at ease with the lot; and they with him. What is more, he inspired affection. It gave him pleasure to make his neighbors glad: and his neighbors recognized this and thanked God for such a man. Upon what I owe him myself, I will not insist, for I think these pages have shown that, but for his present help, I could have done nothing at all and Elizabeth must have been broken and Percy Virgil succeeded to her estate.

To three others I must pay tribute before I end this tale—for I shall leave it at Raven, which was for me journey's end.

Winter is still in my service, but soon will leave it to marry Brenda Revoke. I often think that his was a trying office, for all the time he stood upon the edge of the fray. No vengeance was his, and three times he missed the battle for which he longed. He knew too much or too little from first to last, and yet he never complained, but kept his eyes upon his duty and did it with all his heart. No servant was ever more faithful or gave a fuller measure than Winter did, and it gives me lasting pleasure to think that to some extent he found his fortune with me—for Brenda will make a fine wife and Raven is his idea of heaven on earth.

Of Elizabeth, what can I say? I think there is no one like her, but that is natural enough. Still, Herrick is a fair critic and the Duchess is hard to please. And both of them commend her. Of course she has her faults: but I am thankful for these, for otherwise she would be too good to be true. Her beautiful features have lost their wistful look, and a gayety, long confined, is now at large to lighten her dignity: but her ways are as gracious as ever, her gaze is as level, her shining head is as high, and, though I know her so well, I never can lose the impression that she in fact belongs to the age of chivalry, for she has in fee the haunting, fabulous beauty of ballad and story-book, and she nev-

er seems to notice that, wheresoever she goes, she always receives a duty which is not accorded to others because it is not inspired. "Was this the face that launch'd a thousand ships?" I sometimes think that it was. Though God knows I am no Paris. . . . Perhaps Menelaus was burly, and could not tell "judgment" from "instinct," and went with scales on his eyes. In any event he set great store by his wife. . . .

And as, when a play is over, the most illustrious player stands last and alone upon the stage, the latest to figure here must be Harriet Vincentia Saying, Duchess of Whelp.

Till the first day I stood before her, lying abed, I never had comprehended what personality meant—that indefinable presence which needs no help of the body to make itself felt. And then I knew. . . .

because I was immediately subject to something far greater than me. Had she taken no action and never opened her mouth, that sense of subjection must nevertheless have endured, because her spirit ruled mine from the moment I entered her room. It was the same with us all. High and low went down before her, as grass goes down before the scythe, and I can think of no one who could today stand up and meet her on equal ground. Proud and strong and fearless, keen-witted, humorous, wise—above all, full of that "drive" that made a Conqueror out of a tanner's stock, she moved upon a plane that others sometimes climb to—and find the air too rare for their physique. And so she came down. . . . for us. The fine, old eagle came down. . . . and showed us her royal heart. I use the word advisedly. Royal is as royal does: and the Duchess of Whelp does royally, because, I believe, she knows no other way.

That I cannot compute what I owe her is natural enough. There are some debts before which arithmetic pales. For one thing only, I owe her Elizabeth's life: for, had she not seen and shown me the deadly peril in which, whilst Virgil lived, my darling must be, I should never have gone to keep watch on the turret-stair. Then, again, it was she that had me into the castle and gave me the chance of doing whatever I did.

Unearthly shrewd—and swift to act upon her shrewdness, handling men and women as a horse-master handles a horse, filling the weaker vessel with the virtue that ran in her veins, kind and understanding and generous, using us pygmies as equals, yet asking far less of us than she did of herself—from the hour that we called upon her she was the driving force behind all we did.

Though now there is no more to be done, our allegiance persists. . . . "Tracery is her wash-pot; over Brief hath she cast out her shoe."

The mot, which is Herrick's, is just.

And we are as proud as content, because there is only one "Old Harry the Great."

[THE END]

He looked for trouble

... AND GOT IT! Gordon Breck left an easy life in Hollywood to join the U. S. Forest Service when he learned that his best friend, a forest ranger, had been killed by outlaws. Tracking down the mountain desperadoes was no difficult job—but avenging his pal's murder was not so easy.

If you like excitement... action... romance—all played against a magnificent setting of the West's High Sierras—then you'll like

PETER SEES CHRIST'S GLORY

LESSON TEXT—Matthew 17:1-9, 14-18.
GOLDEN TEXT—We beheld his glory, the glory as of the only begotten of the Father.
—John 1:14.

Service in the name of Christ can be nothing but an empty formality, and a disappointing experience of one's inability really to help anyone, unless it is backed by a vision of the Saviour in all His glory. To Peter, whose life we are studying, there came such an experience as he went with the Lord to the Mount of Transfiguration. We cannot duplicate that day of days in his life in any physical sense, but we may, yes we must, withdraw to that quiet place where we may spiritually see Him whose we are and whom we serve as our transcendent Lord.

I. A Vision of Glory (vv. 1-9).

1. A mountain-top experience (vv. 1-3).

Too much of the daily life and walk of Christians is in the valley. We need now and then to come up to the high places where we may be spiritually renewed. Jesus is ready to take us as He did the three disciples, "up into a high mountain apart." We may not be able to move our bodies, but our spirits may soar to sublime heights with Him. There He will reveal Himself in all His glory.

2. A mistaken attitude (v. 4).

Whether Peter was confused by the remarkable experience, or if it was but another expression of his unfortunate tendency to talk when he should be quiet, we do not know. But he is a representative of those who miss the supreme blessing of such a priceless moment by trying to tell God what should be done.

Had Peter's suggestion been accepted by our Lord there would never have been any redemption for the human race. Sin and sorrow would have reigned supreme in the earth, while he and his brethren enjoyed a season of fellowship with Moses and Elias and their Lord.

3. A divine testimony (vv. 5-7).

God spoke and scattered the confusion of men's thinking by declaring the deity of Jesus, "This is my beloved Son," and His supremacy, "Hear ye him." We live in days of theological and philosophical confusion. We struggle in vain to resolve the moral chaos which has resulted from erroneous teaching by any arguments or by the devices of men. Let us appeal to the Word of God. It is plain, powerful, "sharper than a two-edged sword."

4. A glorious result (vv. 8, 9).

"They saw no man save Jesus only."

II. A Call to Service (vv. 14-18).

Service should never precede vision. Vision is given as a preparation for service.

1. A needy soul (vv. 14, 15).

We live in a world of such desperate need that even the confirmed "all's well with the world" optimists are beginning to see that their rose-colored glasses cannot make them oblivious to its sin and sorrow. The boy was sick; his father was in despair; and these two things just about sum up the need of most of humanity.

2. Impotent Christian workers (vv. 16, 17).

The man brought his son to the place where he had a right to expect help—to the followers of Christ. But he found them without faith to help him. Little wonder then that those around them were still in perverse unbelief. We who profess to follow Christ, and especially those of us who say that we are His servants, should be ashamed of our impotent gestures toward our needy fellow men. There is power with God, power in prayer, power in devoted and faithful service to Christ. Let us claim it!

3. The omnipotent Saviour (v. 18).
Jesus spoke, and the demon departed. The absolute supremacy of our Lord appears not only on the mount of glory, but shines even more brightly in the valley of need. Words do not suffice to describe Him, and yet we must by both word and life proclaim Him to the world as its living Lord and Saviour.

4. A glorious result (v. 18).

"The child was cured from that very hour."

Here is no partial solution, no "hope to help you" effort to meet man's need. Jesus met the boy's full need and at that very hour. Just so we may tell the sinner that he may come to the Saviour with the full assurance that his sin will be put away, and that by faith he will become a child of God.

Seventy Years' Capacity

Therefore thus saith the Lord of hosts: Because ye have not heard my words, behold, I will send and take all the families of the North, saith the Lord, and Nebuchadnezzar the king of Babylon, my servant, and will bring them against this land. . . . Moreover, I will take from them the voice of mirth, and the voice of gladness. . . . and these nations shall serve the king of Babylon seventy years.—Jeremiah 25: 8-11.

Make Quilted Pads For Dresser Drawer

By RUTH WYETH SPEARS.

Time was when a clean newspaper was put in the bottom of a drawer every so often, and the date of the one removed proclaimed how long it had been since this housewifely task had been performed. Now, we make

pads to fit the drawers. We scent them with our favorite sachet and find infinite joy in their soft colorings.

Machine quilting is just the thing to give the pads the stiffness and body they require so that they will lay flat in the bottom of the drawer and not wrinkle up. Glazed chintz in a plain soft blue with darker blue bindings is used for the pads made to fit the chest of drawers shown here. Thin muslin is used for the backing and sheet wadding for the padding. When all three layers of material have been cut the right size, baste them together. The first row of basting is run diagonally across the center and then the rows are spaced about six inches apart as shown. Here also is a sketch of a machine quilter in operation. It is merely a foot with an indicator attached. The end of the indicator runs along each previous row stitched making an accurate gauge for the spacing of the quilting. After the pads are quilted, bind the edges as shown.

NOTE: Mrs. Spears' Book 2—Gifts, Novelties and Embroidery, has helped thousands of women to use odds and ends of materials and their spare time to make things to sell and to use. Book 1—SEWING, for the Home Decorator, is full of inspiration for every homemaker. These books make delightful gifts. Mrs. Spears will autograph them on request. Crazy-patch quilt leaflet is included free with every order for both books. Books are 25 cents each. Address Mrs. Spears, 210 S. Desplaines St., Chicago, Ill.

How Women in Their 40's Can Attract Men

Here's good advice for a woman during her change (usually from 38 to 52), who fears she'll lose her appeal to men, who worries about hot flashes, loss of pep, dizzy spells, upset nerves and moody spells. Get more fresh air, 8 hrs. sleep and if you need a good general system tonic take Lydia E. Pinkham's Vegetable Compound, made especially for women. It helps Nature build up physical resistance, thus helps give more vivacity to enjoy life and assist calming jittery nerves and disturbing symptoms that often accompany change of life. WELL WORTH TRYING!

Words as Shadows

As shadows attend substances, so words follow upon things.

QUESTION

Why are Luden's like lemons?

ANSWER

Both contain a factor that helps contribute to your alkaline reserve.

ASK THE OTHER BOY

Little Gordon had arrived home from school with a cut lip and a black eye.

"Dear me!" exclaimed his mother. "Do you mean to say you've walked through the streets like that?"

"I had to, mum," grinned Gordon. "You see, there wasn't room for the two of us in the ambulance."

Easy Cutwork Will Delight the Beginner

Pattern 6237.

Anyone who can do simple buttonhole stitch (that's all cutwork is) can have lovely linens such as these. Here are a number of motifs suitable for those smaller useful linens—scarfs, towels, pillow cases and tea cloths. Begin now. Pattern 6237 contains a transfer pattern of 14 motifs ranging from 3 by 3 inches to 3 3/4 by 15 inches; materials needed: color schemes.

To obtain this pattern, send 15 cents in coins to The Sewing Circle, Household Arts Dept., 259 West 14th St., New York, N. Y.

Please write your name, address and pattern number plainly.

NO ONE IS IMMUNE TO ACID INDIGESTION

But Why Suffer? Here's how you can "Alkalize" anytime-anywhere—the easy "Phillips" way!

WHY SUFFER from headaches, "gas," "upsets" and "biliousness" due to Acid Indigestion—when now there is a way that relieves excess stomach acid with incredible speed.

Simply take two Phillips' Milk of Magnesia Tablets at first sign of distress. Carry them with you—take them unnoticed by others.

Results are amazing. There's no nausea or "bloating" feeling. It produces no "gas" to embarrass you and offend others. "Acid indigestion" disappears. You feel great.

Get a bottle of liquid "Phillips" for home use. And a box of Phillips' Milk of Magnesia Tablets to carry with you. But—be sure any bottle or box you accept is clearly marked "Phillips" Milk of Magnesia.

PHILLIPS' MILK OF MAGNESIA

Patriotism does not consist in
waving banners, or wearing uni-
forms, or belonging to societies, or
denouncing other lands, or waxing
eloquent about God's own country.
It consists rather in exemplifying in
the twentieth century, the ancient
truth that "righteousness exalteth
nation: but sin is a reproach to any
people." —Dr. Mary E. Wooley.

TINLEY PARK PTA NEWS

On Friday afternoon January 6th
we held our first PTA meeting in
the New Year with a good attend-
ance. Five pupils from Mrs. Sand-
idge's room entertained us with piano,
accordion, cornet and vocal numbers
which we all greatly enjoyed. A
group of members gave interesting
talks as follows: Mrs. Buys on "Lei-
sure Time Reading", Mrs. Crist on
"Hobbies", Mrs. Dean on "Explor-
ing the Sights", Mrs. Kester on
"Movies and Music" and Mrs. Eich-
elberg on "Family Fun". Mrs. Crist
had a very interesting display of
hobbies brought in by the school
children.

We wish to announce at this time
that the Saturday night movies have
been discontinued for the present.

Our Ways and Means chairman,
Mrs. Freitag, announced that our
Minstrel Show was a success. The
proceeds were voted out to buy
books for the various rooms as well
as the library.

The library is greatly in need of a
set of reference books, preferably
"Compton's Picture Encyclopedia".
Anyone in the community having
such a set no longer in use, can do
a very good deed by presenting same
to our school library.

The monthly room award was given
to Mrs. Hesbol's room. Inasmuch
as this room has received the
award several times, Mrs. Hesbol
turned the money over to the li-
brary fund.

At our February meeting we will
celebrate "Founders Day" with suit-
able ceremony.

After the meeting adjourned,
cake and coffee were served.

—Erna Wallin, Publicity chairman.

TINLEY PARK METHODIST YOUNG PEOPLE'S SOCIETY

The Tinley Park Methodist
Young People's Society held a meet-
ing Thursday evening, January 6th
at the church. Election of officers
took place. Those elected are as fol-
lows:

President, Dick Swisher. First
Vice-President, Shirley Anderson;
Fourth Vice-President, Fern Hult-
sen. Sec. and Treas. Gladys Hult-
stein. Pianist, Marion Andres.

The next meeting will be held on
Monday evening, January 16 at the
parsonage.

The Methodist Ladies Aid held
their first meeting of 1939 on Jan.
4th. The small number of ladies
present, certainly did not do justice
to the lovely luncheon served by the
hostesses, Mrs. Henry Bechstein,
Mrs. Henry Brandau and Mrs. Wm.
Schellhase, Jr.

At the next meeting, which will
be on February 1st, each member is
asked to bring along another mem-
ber. In that way the full member-
ship will all be sure to be there.

WANTED—Girl or woman to stay
with three-old child during the day,
prepare evening meal and help sev-
en-year old to get ready for school.
No evenings, Saturday afternoons
or Sundays. Phone Tinley Park 47R.

Last Wednesday afternoon Mrs.
Frank Schmutte was surprised by a
group of friends in honor of her
birthday, but the same evening she
was doubly surprised when another
group surprised her in honor of the
same occasion. A most delightful
evening was spent. Those present
were: Mrs. Frieberg, Mrs. Samuels,
Mrs. Enoch, Mrs. Hopman, Mrs.
Bockstahler, Mrs. Chappel, Mrs.
Schantz, Mrs. Elmore, Mrs. Cousin-
ean.

Carl Goebel who has been ill for
some time, remains about the same.
The village board met Wednesday
evening.

CARD OF THANKS

The Doris Beauty Shoppe wishes
to thank all customers for their pa-
tronage during the past year and
solicits an opportunity to give the
best of beauty service in 1939.

DORIS BEAUTY SHOPPE

Tinley Park
Post No. 615

Boyd H. Carr, Publicity Chairman

The American Legion of Tinley
Park was the host to 34 boys of Tin-
ley on the afternoon of January 2.
The boys were invited to attend a
movie "Boy's Town" in Harvey by
the Legion, transportation being
furnished by Henry Bechstein who
also furnished a chauffeur for the
truck. The boys enjoyed the after-
noon show and came home filled
with all kinds of ideas how a town
should be run.

The show was based on Boy's
Town, Nebraska, where boys of
criminal instinct have been placed
under the supervision of a Catholic
Father. The boys operate the town
under a city government and are
being taught to become better
citizens instead of being placed in
with older criminals.

The Tinley boys were under the
supervision of Scout Commissioner
T. Daniels, Scout Master James and
three Legionnaires of the local Post.
This activity comes under the American
Legion heading of Communi-
ty Service and our chairman, H.
Frietag, is to be commended for
giving the boys a treat.

The Legion held their regular
meeting Tuesday night, January 3.
All committeemen reported celebra-
ting New Year's Eve and had not re-
covered sufficiently to report Leg-
ion activities to much of an advan-
tage.

The Legion is considering build-
ing a home of their own and if any
public hearted Tinley Park citizens
wish to be public minded and have
more land than they need and would
like to have a Club House in their
neighborhood to help improve the
town, the Legion certainly would
appreciate a lot from such a tract of
ground to build on.

The Discussion Group which is

sponsored by the American Legion,
under the instruction of Mr. Mc-
Neela of the Works Progress Ad-
ministration got under way to a
good start Thursday evening, Jan.
5th. As the group meets every
Thursday night between 8 and 10 p.
m., it is hoped the attendance will
increase so that speakers may be
presented locally.

The "Town Meeting" program is
broadcast regularly over the blue
network of the National Broad-
casting Company each Thursday eve-
ning. The topics since the start of the
fall season November 10th have
been: "Where Will the Munich Set-
tlement Lead?" "How Can the Amer-
ican Nations Co-Operate For
World Peace?" "What Does Free
Speech Mean To-Day?" "Is An
Economic Plan For World Peace
Possible?" and other national prob-
lems. These are the subjects which
the Discussion Group will bring be-
fore you as the "Town Meeting" pro-
gram is taken as their guide. Earn-
est American citizens as we are, are
all interested in perpetuating Amer-
ican ideals and institutions. The
discussion group admirably provides
this opportunity.

Work is under way on the new
beauty parlor to be opened in the
Schreiber building by Mrs. Clayton
Enoch, wife of the local dentist.
Mrs. Enoch expects to open her
beauty parlor in about another
week. Watch for adv. regarding the
opening date.

Mr. and Mrs. George Hopman
leave January 14th for a trip to
Florida. They will be gone for about
a month.

Arthur Schoeneck and Harry
Uthe are doing the carpenter work
on two new residences under con-
struction in the south Elmore sub-
division.

R. I. To Make Very Extensive Improvements

Rock Island Lines Budget for
1939, as announced by E. M. Dur-
ham Jr., Chief Executive Officer,
provides for expenditures aggregat-
ing \$32,412,000 for improvements
and maintenance, exclusive of new
equipment. These expenditures are
in addition to a carry-over of \$1,
500,000 from the 1938 improvement
budget.

The 1939 program provides for
continuance of major improvements
to the road's facilities and equip-
ment in accordance with plans adopted
in the early part of 1936. The
principal items in the budget consist
of relaying 417 miles of track with
69,000 tons of heavier-weight rail
and applying 626,000 cubic yards of
ballast over 543 miles of track. Im-
provements to bridges, consist chief-
ly of replacing treated pile trestles
with permanent steel structures or

with reinforced concrete culverts.

The budget also provides for fur-
ther reductions of grade lines in
southwestern Kansas on the Califor-
nia line, which work is in addition to
extensive grade reduction and erec-
tion of a 1,250-foot steel bridge
across the Cimarron River near Ark-
alon, Kansas. When completed, this
construction will provide a maximum
5-10th of 1 percent ruling grade for
a distance of 525 miles between Dal-
hart, Texas and Kansas City.

Improvements to engine termi-
nals, electrification of shop machin-
ery and tools, and the modernization
of fueling facilities and water sta-
tions are also provided for.

The equipment improvement pro-
gram provides for the application of
roller bearings and new engine
trucks on locomotives, and for new
locomotive tenders and tanks of in-
creased capacity; also, for the ap-
plication of stokers to locomotives
not already equipped. It further
provides for modernization and im-

provements to passenger train cars,
and rebuilding of some of its freight
equipment.

WE ANNOUNCE, That, Because
the Sanctuary is so limited in its
seating capacity, we are having an
address system installed in the
church, so that the basement room is
ready for any who desire to worship,
and find it too crowded in the sanc-
tuary when they arrive. We want the
members and friends of our church
to feel free to come, and worship
with us, feeling that, unlike the Inn
in Bethlehem, there now will still
be room for you.

The January meeting of the Sun-
day School Board will be held Mon-
day January 16. All teachers and of-
ficers are urged to be present.

The objective of our church is to
serve you. We cannot reach this ob-
jective alone. You too must do your
part.

ORLAND PARK

Roy A. Loebe local appliance dealer, attended the Household Appliance Show in the Stevens Hotel in Chicago Monday. New 1939 lines of merchandise were shown.

Mr. and Mrs. Ray Brennan who have been operating Brennan's Gables for the past eight years, are enjoying their first vacation. They left Wednesday morning for Miami, Florida. They expect to be gone for a month or six weeks.

Mrs. L. Peters, mother of Mrs. Walter Kay, entertained a number of Orland Park women at a luncheon Tuesday at her River Forest home.

Ted Uthe is serving on the jury in Chicago trying the "Bugs" Moran case.

Mrs. A. J. Toelle who was called to California by the seriousness of illness over a month ago, of her daughter returned home Sunday. Her daughter is improving nicely.

Mr. and Mrs. David Kreuger are visiting in Florida for a few weeks. The Orland Park Legion Post held their monthly business meeting Tuesday night.

A number of Legionnaires from here attended a big Legion meeting in LaGrange Wednesday night.

A card and bunco party will be held at the St. Michael hall Saturday night, Jan. 21st. Many lovely prizes including a door prize will be awarded. Everyone invited.

BASKETBALL GAMES

Anyone who had a weak heart should not have witnessed the basketball games played by the Reish lights and the Orland heavies Friday January 6th. There never was a dull moment during either game and the hair raising finish of both games had the crowd in an up roar and on their toes continually.

In the first game, the Reish's played the fast Cronies A. C. from Chicago and won their 8th game of the season with only one lost up to date.

In this game, their heavier opponents took the lead with a 9 to 2 score before they started to click and by the half time, were in the lead by one point, 15 to 14.

The second half saw the score at 28 all and then 33 to 30 for the Reish's and just before the whistle, two baskets were swished thru the hoop.

The Reish's with their passing and team play are always interesting to watch and win or lose will give any team a battle to the finish for honors. Uthe was high man for Reish's with 13 points, and B. Davidson next with 7 points. For the Cronies, Anderson and Kellp each had 8 points.

Heavyweight Game

In the Heavyweight game, Orland had their first defeat of the season by the strong Lemont team. This game was a thriller and Lemont just pulled the game out of the fire by a basket a few seconds before the final whistle for a 1 point victory, 59-58.

As the score would indicate, there was action every minute and at the close, it was a welcome whistle, the

Lemont boys heard.

The first quarter ended with Lemont leading 24 to 14. At half time they were still ahead 38 to 31.

In the second half as usual when they are behind, Orland came back with a rush but were still 6 points in arrears 48 to 42 at the 3rd quarter. From there on til the finish, things started popping. Orland shot basket after basket. E. Uthe and Nicolai alternating to take a 56 to 49 lead.

From then on Lemont started a scoring spree of their own and had it to 57, meanwhile one more basket was made by Orland putting them in the lead, 58 to 57. With but seconds to play, Lemont put the winning basket thru for a 59 to 58 win.

What a game for thrills and excitement. This is the kind of entertainment you have right at your own front door so open it and take advantage of it.

HIGH SCHOOL NEWS

The High School will present a 3-act comedy entitled, "Johnny Grows Up" on Wednesday and Thursday evenings, February 1 and 2. The cast is as follows:

Betty Stephens, the oldest daughter, Margaret Bergin, Grace Stephens, her sister, Anna Holthoff. Mrs. Stephens, her mother, Bernice Rauch.

Mr. Stephens, her father, Norman Yunker. Johnny Stephens, her brother, Eugene Uthe. Dr. Bates, the family doctor, Clifford Horn. Roger McClain, Betty's friend, Carl Smith.

Sister McClain, Roger's little sister Mildred. Doctor. Ralph Johnson, Johnny's pal, Arthur Uthe. Mrs. Johnson, Ralph's mother, Violet Ferry. Jean, guest at the party, Vera Zerbs. Other guests: Hazel Uthe, Betty Yunker, LaVern Smaedake, Elcanor Knox, Lois Strong, Tom Martin, Roy Carlson, Bill Davidson and Bill McAleer.

English 2 and 3 Classes are getting material ready for the next issue of the OPEHI TATTLER page. The Freshmen also will contribute this next time.

The school listened to the science lesson of the Board of Education Radio Council over WJJD Tuesday afternoon. The subject was, "In the Path of a Tornado." The difference between a cyclone, a large whirl of air, beneficial after prolonged hot spells, and the small fierce tornadoes, was explained. The science reporter's story of one tornado was dramatized.

Semester tests will be given January 16 and 17.

ODDITIES AT THE FAIR

NEW YORK—Here are a few of the strikingly unusual things visitors will find at the New York World's Fair 1939:

A parachute tower from which visitors may "bail out" at an elevation of 250 feet and be sure of a "happy landing."

Revolving "magic carpets" from which you may look down as from a height of two miles upon "The City of Tomorrow" inside the 200-foot Perisphere.

A "Tree of Life" carved from the trunk and branches of an elm planted in Connecticut in 1781 by Revolutionary War prisoners.

"Steve Brodie" jumping six times a day from a reproduction of the Brooklyn Bridge.

The most valuable wheat field for its size in the world in full growth.

Five million dollars worth of diamonds, rubies, emeralds and other gems in one glittering display.

The steel-walled bathysphere in which descent has been made miles down in the black depths of the ocean.

"Rocket gun" by which passengers will be shot to the moon, or Mars someday—perhaps.

The model of a human eye so large visitors may enter it and look out upon the Fair's busy scene just as if the eye were doing the looking.

Two hundred blooded cows being milked daily on a revolving platform.

An orange grove transplanted intact all the way from Florida.

Automobiles with living drivers in hair-raising collisions and flying somersaults.

The largest opal in the world.

An oil well in operation with real drillers in the "cast."

The largest model railroad ever constructed.

Puppets 14 feet tall dramatizing

the contents of the familiar bathroom medicine cabinet.

Displays of rare orchids, renewed every three days by plants flown to the Fair from Venezuela.

The tremendous discharge of 10,000,000 volts of man-made lightning.

A Brazilian exhibit building erected on stilts.

A floor made of cotton.

Ricksha runners from South Africa six and a half feet tall and clad mostly in feathers, horns and beads.

A waterfall cascading from the high roof of a building.

Mural paintings that change their colors while you're looking at them.

Fireworks set to music in related patterns of color and light.

A city entirely populated by midgets.

An automobile speedway half a mile long on top of an exhibit building.

Mighty snowstorms sweeping down out of a clear Spring sky.

A building turned inside out with its roofbeams on the outside.

Moving chairs traveling around in a building so visitors won't have to walk.

A flight to Venus so real you'll swear you've been there and met the folks.

The tallest mural paintings in the world.

A model of New York City so large that the Empire State Building is reproduced 23 feet tall.

A sphere 200 feet in diameter seeming to revolve on jets of water, like the little silver ball in the shooting-gallery.

A fountain that sings.

Paintings that have to be destroyed every night and done all over again next morning.

A "Fountain of the Atom," with electrons and protons dancing around a pulsating shaft of light.

Air Map of Manhattan and New York World's Fair Grounds

NEW YORK—An aerial photographer recently obtained this remarkable picture showing the skyline of New York with its relation to the grounds of the New York World's Fair 1939. An artist has painted on lines indicating distances from certain points in Manhattan to the Fair grounds. These distances, and other

facts concerning road and bridge approaches to the exposition which is preparing to handle 60,000,000 visitors, are: (1) From Empire State at Fifth Avenue and 34th Street, in the heart of the retail shopping district, to the Fair grounds, 7 miles. (2) From Wall Street, in lower Manhattan, to the Fair grounds, 8½ miles. (3) From

the entrance to the Triborough Bridge, 5½ miles. (Motorists can make this trip without encountering a single traffic light). (4) Holland Tunnel from New Jersey, showing route through lower Manhattan across Williamsburg Bridge (No. 9) to roads leading to the Fair. (5) The Battery. (6) Brooklyn Bridge. (7)

Manhattan Bridge. (8) Brooklyn Navy Yard. (9) Williamsburg Bridge. (10) Queensboro (59th St.) Bridge. (11) Grand Central Parkway. (12) North Beach Airport (now being enlarged at a cost of \$30,000,000). (13) New Whitestone Bridge, furnishing direct gateway from New England and Canada.

Bugle Calls

By Zeb Potter

HIS RESIGNATION

A Story by Zeb Potter

"O'Malley, young detective, leaned against the diamond counter in Grierson and Michaels Jewelry store. Casually he noted the amazed expression of passers-by at the wealth in the windows for the Christmas trade.

"Do you think they will show up this evening, Abe?" He nudged the puffing fat partner of the store in his well up-holstered stomach.

"Who can tell," Michaels lovingly restored a tray of gems to the inside of the show case. "But with you here, Mr. O'Malley, I don't worry."

The door opened. In walked a portly old gentleman with a fur collar turned up around his ears. Searchingly O'Malley looked beyond him to green clad girl with fair skin and serious blue eyes.

O'Malley gasped. He turned to Michaels for the pre-arranged signal a wiping of his over hanging nose. He looked at the girl. It was Marya of the Cafe de Alex. Sonya, the girl he opened the inner portals of his heart. The girl he had told, "I love you."

Sonya recognized him. "Her cheerful voice floated across the store to him, 'Hello, Pat.'"

If she was a crook, she was playing her part well. The old gentleman turned to Michaels and ponderously ordered, "Sir, I should like to see some of your diamonds, your most expensive stones for my daughter."

"Partner to you, thought O'Malley carefully scrutinizing the pair from a distance. Anyway she doesn't know I'm a copper. I didn't tell her that."

Carelessly Michaels produced a tray of gems for the two. Then almost indifferently he turned his back on them to focus his bulging eyes on the wall clock.

"That jeweler has a lot of confidence in my ability," surmised the alert O'Malley. Swiftly and silently the old gentleman transferred a gem to the hand of girl. Then Michaels

turned. O'Malley stepped forward. With a curt nod to the jeweler. He snapped to the pair. "Hold the man. Use your gun is necessary. I want to talk to the 'dame.'"

He pushed her into a booth. His Irish blue eyes filled with disgust as he searched her well poised face for that gleam of nervousness, which did not come.

"So you're going to be a tough 'babe' to break?" He grasped her arm.

"What do you mean, to break. Aren't you my man, Pat?"

O'Malley tried to look at her hard. Emotion welled up in him and not in her. "Give me that rock that the old 'guy' lifted out of Michaels' case."

Calmly she opened her pin seal bag. "Here it is." She handed it to him.

"Now what are you going to do with me?"

"Do with you?"

"Yes, do with me."

"I'm going to let you go."

Her rouged lips curled into a smile. "I thought you would. Pat, you're such a grand boy."

The girl left the booth. A faint trace of perfume lingered after her. O'Malley mopped his moist brow. He sat down and penned the note, "I hereby tender by resignation, effective, etc."

3 Years of WPA Operations In Will County

AUGUST 1935—AUGUST 1938

The first workers went to work on WPA projects in Will county during the latter part of 1935. The purpose was to take persons and families from the public relief rolls and provide the security of work and wages to those who had been dependent on relief.

Something of the gravity of the conditions WPA was intended to relieve is indicated by the fact that during the month of May, 1934,

16,478 persons received public relief in Will county. This was 14.9 percent of the total population of 110,732, as recorded by the census of 1930.

On August 31, 1938, 3,651 wage earners from as many families were working on WPA projects scattered over the county. Thus, WPA is found by fair minded persons to be carrying out its original purpose of providing work and wages for persons who would otherwise be on relief.

The best available report on wages paid out to WPA workers in Will county is cumulative as of June 30, 1938. This report shows that \$2,784,267 from Federal and sponsors' funds were actually paid into the hands of these workers on WPA projects in many sections of the county. Evidence of several reviews makes it clear that these wages have flowed steadily into the hands of local business concerns and have aided in sustaining business levels in all parts of the county.

These WPA projects have also required expenditures for materials, rentals, and other non-labor costs of operation. Local sponsors have made their proportionate contributions for these purposes. Up to June 30, 1938, \$937,555 had been expended from sponsors' and Federal funds combined to keep these projects in operation. The local sponsors deserve commendation from the citizens of the county for their intelligent and hearty participation in making WPA projects possible.

Thus, during the months of Aug., 1935, through June 30, 1938, a total of \$3,621,822 has been expended on WPA projects in the county. This is an average of more than \$1,200,000 a year released in channels of trade throughout Will county.

FRANKFORT

Mrs. Herbert Kohlhaas

The Royal Neighbors will have their annual installation of officers on Thursday, Jan. 19 in Frankfort Hall.

The Home Improvement Club will meet on Thursday, Jan. 19 in the home of Mrs. Charles Pfaff, Jr. Mrs. Hedges will have charge of the program.

The public school vacation was ended Wednesday following the installation of the heating plant. Work on the new gym is progressing quite rapidly.

On Jan. 6 Miss Corinne Krusemark celebrated her 18th birthday by entertaining the following: Katherine Priami, Lucille Topp, Betty Vollrath, Georgia Mitchell and Marjorie Hasenjaeger. A five o'clock dinner was served by her mother, Mrs. Albert Krusemark. The room and table were beautifully decorated by Corinne in pink and blue. She is an honor student of J. T. H. S., specializing in art. The guests were honored by a party in the evening. The group enjoyed themselves immensely and assured Corinne they would remember the event for a long time.

Mr. and Mrs. Henry Kampe of Springfield spent the week end with relatives here and in Lockport.

Miss Loretta Maass spent last week in Chicago visiting relatives.

The annual meeting of the St. Peter Evang. and Reformed church congregation was held January 3rd. The following members were elected to serve on the council for the next three years: Leroy Mager, Herbert Schoop, Wallace Weichbrodt, and Harold Scheer. They were installed on Sunday, January 8th. The congregation resolved to try to pay their debt in the next four years.

Mrs. John Minger is ill in her home.

On Friday, Monday and Tuesday the students of J. T. H. S., will have their final exams, thus closing the first semester. They will enjoy a vacation until Jan. 23rd when they will start the last half of the year.

Rev. and Mrs. Ake, of Pullman, Ill., former pastor of the local Methodist church visited in the John Clark home Saturday.

HOMER

Mrs. Fred Kopelman

The Homer Unit of the Home Bureau met in the home of Mrs. Edw. Beaver Tuesday afternoon with 15 members, three visitors and two children present. The meeting was called to order by Mrs. Robt. Burch chairman and the following committee chairmen named: Recreation, Mrs. Wm. Lister; Hospitality, Mrs. Barney Welter and Major program Mrs. H. W. Bischoff. Mrs. Huffman, Home Bureau Advisor then took charge of the meeting and demonstrated "Procedure in Preparing Different kinds of fruits and vegetables for freezing", in the cold storage lockers which are now available at the Farm Bureau Building in Joliet.

New Years resolutions, under the direction of Mrs. Lister were then written and read. Plans were made for a card party to be held at the Goodings Grove hall, Wednesday night, Jan. 18. The party will be sponsored by the Home Bureau and the Goodings Grove Hall Co. The committee appointed to have charge are Mrs. John Welter, Mrs. Edw. Beaver, Mrs. Barney Welter and Mrs. Fred Kopelman. Delicious refreshments were served by the hostess at the close of a pleasant afternoon. Guests at the meeting were Mrs. Schilling of Orland, Mrs. Coates of Chicago and Miss Margaret Hostert of Orland.

The Wayside Workers circle of Kings Daughters were entertained in the home of Mrs. Fred Trask in Lockport Thursday afternoon. The meeting was called to order by Mrs. Fred Blodgett, pres. Guests of the club were Mrs. John Frazer and Mrs. Cornelia Lynk.

Geo. Konow, who underwent a major operation in Silver Cross Hospital last week returned to his home Thursday.

Tuesday night, Joseph Brankley opened his home for the monthly meeting of the Dramatic club. A large number of members were present and after the regular business session June Milton, pres. announced that the play books had arrived and rehearsals for the three act comedy, "Little Miss Tatters" which will be presented this winter, will start next Tuesday at the home of Mr. and Mrs. Robt. Burch.

After several games, Mrs. Brankley, assisted by her sons, Geo. and Joe served delicious refreshments. The Woman's Community club will meet in the home of Miss Myra Reed Wednesday afternoon.

Mr. and Mrs. Ralph Waldvogel and son were entertained at a 6 o'clock dinner at the home of Mr. and Mrs. Frank Rosecrans Friday evening. The evening was enjoyed by the group at the Shriners Circus at the Amphitheatre.

The Modern Woodmen met in their hall Wednesday night. The annual election of officers was held and resulted as follows: A. C. Haley, Venerable Counselor; Barney Welter, Advisor; Wm. Lister, Banker; Walter Jungles, Sentry; Harry Jungles, watchman and John Welter was made manager for 3 years. Refreshments were served by Thomas Welter and Harry Jungles. Walter Jungles and Matt Weber were appointed to have charge of refreshments at the January meeting. Installation of officers will be held.

Miss Helen Frazer was again removed to Silver Cross hospital for medical treatment.

The small daughter of Mrs. Wm. Kasper is seriously ill at Silver Cross hospital.

Make your plans now to attend the card and bunco party at the Goodings Grove hall Wednesday night, Jan. 18. Pinochle euchre and bunco will be played and prizes awarded. Dancing will follow the games.

The little son of Mr. and Mrs. Elvis Cagwin is on the sick list.

A goodly number from this vicinity attended the annual meeting of the Farm Supply Co. at St. Johns hall in Joliet, Saturday.

Fourteen young people from the Homer Fellowship group attended the evening services at the 1st Presbyterian church in Joliet Sunday night.

The Barnett school was closed Monday due to illness of the teacher, Mrs. James Glade of Manhattan.

MOKENA

Mr. and Mrs. John Marti and son from Plainfield were guests in the Bert Spiess home last Wednesday.

A daughter was born Friday in Silver Cross hospital, Joliet to Mr. and Mrs. Robt. Yunker of Orland.

The 81st birthday of Mrs. Caroline Braun was quietly celebrated last Sunday in the home of her daughter, Mrs. August Pfleger. Guests were her daughter, Mrs. Peterson and husband; son Albert Braun and wife and Mr. and Mrs. John Mattes.

The condition of Willis Hall who is ill in the home of a friend in Chicago, is such that he cannot be removed to his home here.

Miss Adeline Semmler accompanied a group of friends to the Grand Opera in Chicago last Sunday evening and saw Grace Moore take the part of Mimi in La Boheme.

SCHOOL NEWS

PRIMARY ROOM—Everybody is back after a happy vacation with the exception of one or two. The children are busy making January borders of cotton snowmen.

INTERMEDIATE ROOM—Mrs. Ferguson was unable to be at school Monday due to illness. Everyone was glad to welcome her back Tuesday. All the children reported very pleasant Christmas vacations. The room is decorated with attractive snow pictures.

JUNIOR HIGH ROOM—The history classes have made some interesting booklets and graphs on the Louisiana Purchase and on the growth of immigration to the United States.

HIGH SCHOOL ROOM—The Freshmen are continuing the study of The Lady of the Lake. The members of the history class are making charts on the general trend of World Progress from primitive man down to the French Revolution. Next week marks the end of the first semester and most of our time will be devoted to review and tests.

SPORTS—This Friday night, Jan. 13, the school teams resume then in two games. During December the grade team defeated Orland and Crete. The high school team was not so fortunate and lost to these two teams. They were also defeated by the Mokena Alumni in the benefit game. The new pads, purchase of which was made possible by the receipts of the benefit game, will be used for the first time Friday night in the games with Monee. Come out and give the home team a boost.

Mrs. Florence Steele left Saturday with her sister Mrs. Vancura and husband for a motor trip to California. She will be gone a month. Her brother is staying with her family in her absence.

Mrs. Caroline Marti attended the 80th birthday celebration of her sister in law, Mrs. Bertha Lauffer in Tintley Park Sunday.

Mrs. Wm. Lowe entertained at a miscellaneous shower in her home last Saturday afternoon in honor of Miss Ethel Lauffer and her approaching marriage to Mr. Walter Wynne of Troy. Miss Lauffer received many lovely gifts. Guests were present from Orland, Tintley Park, Frankfort, Chicago and Mokena.

Miss Helen Nielsen who has undergone two chest operations recently in Silver Cross hospital, is improving favorably.

The following are the officers of the Mokena Camp of the Royal Neighbors who were installed at their regular meeting last Tuesday evening:

Oracle, Mrs. Myrtle Walsh; Past Oracle, Mrs. Myra Sorsenson; Vice Oracle, Mildred McMillan; Chancellor, Viola Hostert; Recorder, Myrtle Cooper; Receiver, Helen Pfleger; Marshall, Allie Mast, assist, Lulu Cappel; Inner Sentinel, Adeline Semmler; Outer Sentinel, Pauline Barenz; Flag-Bearer, Henrietta Schweser; Faith, Mary Catherine Hauser; Courage, Elizabeth Yunker; Modesty, Elmira McGovney; Endurance, Mrs. Monson; Unselfishness, Bernice Hostert; Manager Mrs. Yunker.

Mr. and Mrs. Henry Yunker and Mr. and Mrs. Christ Kohl returned Sunday from a 3300 automobile trip to Florida. They visited at Miami, Tampa, St. Petersburg, Tallahassee and other points. While at Miami they saw Wm. Jones, a former resident of this section who operates a filling station in that city.

Beverly, little daughter of Mr. and Mrs. Willis Hall has been ill the past week due to an infection.

WISE
Advertise!

PALOS PARK

Miss Christine Hillig entertained members of the Palos Juniors in her home last Friday evening. Arlene Heidel and Patricia Lannon were guests. Mary Massey, Jerry Rickoff and Shirley Harris were admitted to the club, each having received a unanimous vote. The next meeting marks the initiations of the three girls which will be January 20, in the home of Louise Kriz at 7:30 p. m. This meeting is scheduled one half hour earlier due to the initiations.

The three committees appointed consists of: Pearl Zaleski and Jane Muhlhause to initiate Mary Massey; Henrietta Baker and Patricia Saunders to initiate Shirley Harris and Jerry Rickoff will be induced by Louise Kriz and Christine Hillig.

The three new members are asked to attend this meeting and Arlene Heidel and Patricia Lannon are invited to attend the meeting after next, as their membership will be voted on at this meeting.

The Palos Park Superior School, district 118, P. T. A. held a meeting in the school January 12.

Mrs. Tait entertained at a bridge luncheon in her home last Wednesday. Guests were: Mrs. Robt. Harkness, Mrs. Robt. Fialyo and Mrs. Lewis Collins.

Miss Charlene Tamlyn entertained with a Tea in her home last Friday afternoon.

Mr. and Mrs. C. Baker announce the engagement of their daughter Henrietta, to Lawrence. Poorman son of Mr. and Mrs. Geo. Poorman of Worth, Illinois.

LINCOLN ESTATES

Mrs. Pearl Whitney

Donna Dean, McLean entertained Lois Bennett of Chesterton, Ind. for several days.

Mrs. J. H. Cochran and Mrs. C. Griswold visited in Roseland at the Ford home last week.

Mrs. G. C. Wedale spent Wednesday and Thursday in Chicago with her sister Mrs. G. MacKenzie.

Mrs. G. McLean and children spent the weekend in Gary, Ind.

Mrs. G. C. Weddle and Willard Eberhard celebrated their birthdays jointly Jan. 7. A pink and white and a yellow and white cake were served to the guests who were, Mr. and Mrs. C. W. Smith and daughter, Mrs. B. Haskin, Mr. D. Carmichael, Dr. and Mrs. J. Garofalo and daughter all of Chicago. Very lovely gifts were received.

Rent Cold Storage Lockers

Finishing touches on the cold storage locker plant at Joliet are being completed and the facilities will be in use in the very near future.

The locker plant will provide a means for farm families to store their home grown meats, fruits and vegetables for year round use at home.

Butchering facilities and aid in packaging other foods will be furnished at the plant.

Those from eastern Will County who have already leased lockers are: J. F. Stauffenberg, Green Garden, Herman Barlowort, Frankfort, W. C. Bettenhausen, Green Garden, Frank Bischoff, Homer, Fred G. Lauffer, Homer, Ray Brown, New Lenox, Christ Hohenstein, Frankfort.

Better Day Ahead For Dairymen Who Test Their Herds

Every dairyman in Cook County who is interested in a larger income from an improved herd will have a chance to get it in the drive now under way to enroll at least 10 per cent of the cows in this and nine other northern Illinois counties in dairy herd improvement association.

For more than a quarter of a century dairy herd improvement associations as sponsored by the College of Agriculture, University of Illinois have been building larger incomes for their members, and now additional herd owners are to have a chance to enroll before the drive closes the first of next June, it has been pointed out by Farm Adviser Hughes of Cook County.

Cook County already has one association with 635 cows on test belonging to 24 members, he reports. All of these members can testify as to the benefits of herd improvement association work in more economical feeding, efficient production, herd sire testing and increased net returns.

McHenry county where the college started the dairy herd improvement association plan in 1910, is at present well ahead of the nine other counties of the district in the race to get 10 per cent or more of the cows enrolled. It has four associations with more than 2,600 cows on test.

Kane county has three associations with 1,984 cows on test; Will, two associations of 1,212 cows; DeKalb, two associations of 1,069 cows; Lake two associations of 979 cows; Boone two associations of 906 cows; Du Page, two associations of 867 cows; Kane, two associations of 721 cows; Cook one association of 635 cows and Kendall, one of 234 cows.

Increasing the number of cows on test in these 10 counties to 10 per cent or more of all cows will mean approximately 15 new associations, 375 new members and production records on 7,500 additional cows.

Wrestling Thurs. January 19th

A new comer will be introduced in the Joliet weekly wrestling show Thursday nite Jan. 19th at the Chamber of Commerce Arena and will wrestle the main bout, a sixty minute one fall match. This new comer is the Mystery man. The Mystery man weighs 196 pounds is tremendously strong and scientific. His identity is unknown as he wears a mask in all of his matches even in the dressing room and to and fro from the arena. This athlete has made a very impressive record for himself in Detroit and Columbus, has won many victories and claims that when he is defeated he will remove the mask, but he has not been defeated since coming to the middle west. The Mystery Man's opponent will be none other than that old meanie Farmer Mack. Farmer is originally from Skowhegan, Maine and is a former potato farmer. He has just returned from a trip thru Canada where he did very well for himself.

Cedric Phelps, Joliet's own Pro. wrestler will make his third start as a professional grappler. Phelps is a Joliet Radio dealer and former Y. M. C. A. athlete. He will be matched with Kid Chapman former University of Iowa grappler and a very experienced boy.

The third match will feature Rufus Jones, the colored wrestler from Boston. Jones is plenty rough, tough and mean. He will meet Babe Kasaboski of Toronto, Canada. There will be one more match yet to be named. The show will start promptly at 8:30 p. m. and the advance sale of tickets will be at John McGuire's Jewelry store, John McCarthy's Clothing Store and at the Hollywood Luncheonette. There are seats at 28, 44 and 75 cents.

Preparedness of U. S. Industry Regarded as Key to Security

Strategic Product Shortage Draws Attention of Military Men

By JOSEPH W. LaBINE

The "peace" of Munich and the undeclared war in China reflect a general ferment of unrest in Europe and Asia which may momentarily flare up into a greater World war. This is the situation which has stimulated American efforts to assure both territorial and economic security.

While the balance of power in Europe as well as in Asia appears to make the contingency of territorial aggression against the United States remote, both army and navy have advocated a program of reasonable expansion in their departments and the extent of this expansion will be a major subject of debate at this session of congress.

Less spectacular but even more basic is the need for adjusting the capacity of American industry to war materials production, and accumulation of raw material supplies which might be cut off from us in the event of a European or Asiatic conflagration. Industry has to a limited extent prepared itself but has a long way to go yet.

There are, according to the assistant secretary of war, approximately 55 items needed in war time which are so difficult of production, so different from ordinary peacetime needs, that industry will not be able to go into production of them without some "education." And the last congress provided funds for the purpose of giving "educational orders" for the manufacture of only six of these items.

The average voter does not realize that mobilization applies not only to men and battleships, but to plants and machines, skilled labor, power, transportation, raw materials and financing.

Preparation for Peace. It is significant that for the first time in the history of the United States the war department is, through preparation of an "educational orders" program, anticipating war well in advance of the unpleasant fact. This does not mean the United States is preparing to go to war; on the contrary, it is preparing to keep out of war if possible. So doing, it is merely following cautiously in the footsteps of those dictator nations which for a decade have bent nearly all economic effort to the furtherance of one ultimate aim—the efficient functioning of an army in the field.

Plants and machines cannot be

NO ENEMIES—YET: A three-inch anti-aircraft gun is pointed skyward in Philadelphia's Revere Plaza, facing the city hall, as part of the aircraft vs. anti-aircraft demonstration featuring a National Guard association convention.

the navy department, it is estimated, must be increased from the present level of 72,000 to 100,000 by 1942 in order to keep pace with building. There is today a definite shortage in technical specialized ship-building trades of naval architects, marine engineers, mold loftsmen, shipfitters, coppersmiths and so on.

From Toys to Bombs. Initial investigation of about 10,000 factories, which has been carried out by the government, constitutes only the beginning of a gigantic task which will prepare America for production of those war materials which it lacks and which it may have to produce in a hurry—bomb sights for planes, canisters for gas masks, demolition bombs and fuses, 37-mm guns, more and heavier tanks, semi-automatic rifles, light machine guns, trench mortars, gas masks (there are only eight gas masks for every hundred men in the national guard today), 105-mm. howitzers, 8-inch howitzers, motor cars, motor trucks, and so on.

Locomotive factories must prepare to produce 155-mm shells, and makers of toy trains must be trained to manufacture gas mask parts. Factories all over the nation must make artillery shells instead of plumbing fixtures, leather leggings instead of baby shoes, shell fuses instead of radios, haversacks instead of handbags, bombs instead of

staff for increasing the army personnel by 3,000 men and providing equipment for an initial war force of 400,000 officers and men. The United States is building six new 35,000-ton battleships, largest ever used by this country, a new aircraft carrier, a new heavy cruiser, three light cruisers, 16 submarines, 40 destroyers and other auxiliary craft. These are to be finished products. But the ramifications of preparedness are infinite; materials are basic requirements for war industries as for any other industry.

It is generally assumed that the United States is so rich in natural resources that it can supply its own industry with no great trouble—that we are prepared, in fact, for any supply emergency. This assumption is no more correct than the public belief that the army, although small, is well furnished with modern weapons and equipment, or that industry is prepared to supply immediately the additional weapons and equipment which would be required in an emergency.

As a matter of fact the war department has listed 21 "strategic" war materials for which the United States today depends wholly or partly upon foreign imports. And, in the event of a general European war, these imports might well be cut off; even trade lines between the United States and our South American neighbors might be severed.

What Was the Cyclops' Fate?

This danger is no mere theory, but well supported by fact. There was, during the World war, the classic case of the collier Cyclops, which set out from Brazil one day with 10,000 tons of manganese bound for the United States. That boat never reached its destination, and neither it nor any of its 309 passengers were ever heard from again. Perhaps it encountered a German U-boat, perhaps a mine; no one knows with certainty. And manganese is listed by the war department as strategic material number one; 14 pounds of this material are essential for the manufacture of every ton of steel and there is no known substitute.

Today the United States produces domestically less than 5 per cent of its manganese requirements. More than a third of the manganese imports to this country come from Russia; other sources are British India, the Gold Coast of Africa and Brazil. When and if war comes the seas will no longer be free; the Russian and Indian sources of manganese would almost immediately be cut off from us, and the Gold Coast is 4,600 miles away. The Brazilian source was once cut off as we have seen, and may be again.

While the United States has manganese ore resources in 20 states, they are largely undeveloped. Under the stimulus of war from 1914 to 1918, domestic output jumped from 2,635 tons to 305,869 tons, but production fell off again in 1919 and has remained almost negligible ever since.

Processing methods have since been developed, one of the most effective of which has been applied to the production of ore from the Cuban deposits of the Cuban-American Manganese company. The army sees the Cuban ores as an important reserve since shipments from that country would not be subject to interruption in an emergency.

Miller-Case Plan Up.

Both army and navy are strongly behind a plan to build up a stock pile of a million tons of processed manganese ore and opinion is growing for the removal of manganese from the list of commodities on which tariffs were reduced by reciprocal trade agreements with foreign nations. This plan is embodied in the Miller bill introduced at the last congress and the Miller-Case concurrent resolution. It is anticipated that the plan will be presented again to congress at the session just starting.

Important point in the preparedness program so far initiated is the plan to provide reserves of strategic war materials, and doubtless congress will reconsider as part of a general industrial mobilization plan legislation which was first introduced last spring seeking authorization for the army and navy to acquire, over a four-year period, \$100,000,000 worth of essential minerals, and providing that domestic producers be favored in these purchases.

If this plan is reconsidered, and adopted in its present or an amended form, an important step will have been taken in assuring for the United States continued supplies of materials on the list of which manganese is only one. Others are chromium, mica, quinine, tungsten, aluminum, antimony, coconut shells (used for carbon filters in gas masks), tin, wool, coffee, silk, hides, sisal, nickel, opium, mercury, iodine, optical glass, Manila fiber and rubber.

Non-spectacular objective of this plan, as explained by Sen. Elbert D. Thomas of Utah, chairman of the Senate Military Affairs Committee, is to obtain a sounder type of "raw materials insurance" than can be attained by simple stock-piling foreign purchases of ores—a procedure which would not solve the problem in the event of a protracted emergency.

NATIONAL AFFAIRS

Reviewed by
CARTER FIELD

Hopkins will be confirmed, but there will be considerable pelting first . . . Barkley, senate leader, in somewhat of a dilemma . . . Presidential politics likely to complicate national defense situation.

WASHINGTON.—Individual senators and representatives, and for that matter congress as a whole, would like to throw the White House rubber stamp in the wastebasket, this session, but the Democratic majorities—still large in both house and senate despite the slaughter on last election day—do not want to throw away with it the key to continuance in power, and to patronage.

The real question is just how many White House recommendations Capitol Hill can kick around without upsetting the applecart of individual house and senate members in their own re-nomination and re-election campaigns. It will be rather a nice question of judgment, in many instances, particularly for the large southern conservative bloc, and for northern and western Democrats who for one reason or another do not like Franklin D. Roosevelt, or the New Deal, or the particular New Dealers who are close to the throne.

The hearings that are to come on the confirmation of Harry L. Hopkins will be rather revealing in this connection. Hopkins has not too many friends in Capitol Hill. And some of his best friends and warmest supporters may not be inclined to get their fingers burned too badly in defending him. Not that there is any real question, at the moment, of Hopkins' being confirmed. He will be. But there will be considerable pelting first.

For instance, consider the dilemma that will confront the Democratic leader of the senate, Alben Barkley, who fought to the death on the floor of the senate last spring to prevent any hamstringing of the political activities of the WPA under Hopkins, and who benefited by the political support of WPA in his fight for renomination probably more than any other candidate in 1938.

Barkley Was Hurt Pretty Badly by WPA Business

But the consensus is that Barkley was hurt pretty badly—as far as his reputation outside Kentucky is concerned—by that WPA business. If Barkley were not, in his own heart, a candidate for the presidency in 1940, he could afford a renewal of the scandal. But as it stands Barkley would like the country to forget how, on the floor of the senate, he defended the use of WPA in politics because it was necessary to meet the use of state employees on the other side.

It will be found, unless a good many minds change between now and then, that few stones will be put in the path of those who wish to do a lot of dirty linen washing over Hopkins' confirmation. At least few stones will be put there by senators. The White House, of course, and Hopkins' host of friends in the left wing of the New Deal, will try to move heaven and earth. However, there is no indication that anyone around the senate will pay much attention to efforts that Harold Ickes, Tommy Corcoran and Ben Cohen may make to protect their friend.

Even the senators who are still for the President do not all like his left wing lieutenants. There is the question of believing the best Democratic strategy, looking toward 1940, is for a slight turn to the right, as predicted by Gen. Hugh S. Johnson. There is the old fact of human nature that loyalty lies to the king, but not to the king's ministers.

Alcohol as Substitute

For Gasoline Is Up Again

Agitation for substitution of alcohol—in part—for gasoline, and thus providing a largely increased market for corn, is with us again, but is not likely to get anywhere.

On the surface the idea is very appealing. Farmers could turn from other crops to corn, thus relieving not only the corn-hog surplus, but also the surplus in the other crops from which the farmers would turn to corn. It is easy to figure out, from department of agriculture figures, that virtually all the overproduction of farm crops in the country would thus be ended.

This would eliminate the \$400,000,000 a year now being paid farmers not to raise specific crops.

According to the bureau of chemistry and soils, and this finding is supported by an impartial survey which is soon to be published in detail, the idea is not so sound eco-

nomically as might be expected.

In the first place, the survey establishes, to its own satisfaction at least, that blending the proposed quantity of corn-produced alcohol with gasoline would make the cost of this mixture two cents a gallon more than gasoline. This, it is estimated, would cost \$440,000,000 a year, which might be financed either by increasing the price of gasoline to consumers or by the government's subsidizing the whole move in the interest of agriculture.

Assuming the latter, the government would be only \$40,000,000 in the red by the operation as compared with present farm subsidies. But that is only part of the picture. In the first place the government might have to come to the relief of the oil industry.

**Motor-Car and Truck Users
Would Let Out Big Howl**

Again, the idle capacity of the alcohol industry, which is about 250,000,000 gallons a year, is only one-tenth of what would be necessary to supply a 10 per cent blend of alcohol and gasoline for the motorists. So a capital investment of some \$300,000,000 would be required to provide the necessary facilities.

Then it would seem likely that the motor-car and truck users of the nation would let out plenty of complaints if the proposed blend were forced on them by government fiat. A road test was conducted this year by the American Automobile association, in co-operation with the U. S. bureau of standards. This revealed that the proposed 10 per cent alcohol blend would be nearly 5 per cent less efficient than straight gasoline.

What the big trucking companies would have to say about this can be imagined, and it so happens that for some time they have been organized, politically, and needless to say would make their views known in Capitol Hill.

**Politics May Complicate
National Defense Problem**

Presidential politics promises to complicate the national defense situation amazingly. Actually the fight will be led on the one side by Louis A. Johnson, assistant secretary of war, and on the other by Sen. Bennett Champ Clark of Missouri.

Johnson will fight for prodigious appropriations and authorizations. For example, he wants 10,000 airplanes—for the army alone. Of these he figures about 3,500 will be necessary for training, so that the 10,000 would yield a net of only 6,500 fighting planes.

Clark will lead the fight against any such heavy appropriations. He will demand: Why are they necessary? What good will they be after a couple of years when they are obsolete? And so on down the line.

The interesting part of the situation is that neither of the two men who will thus be limelighted, before January is over, as the champions of the two sides are President Roosevelt's own choice for his successor in the White House, and yet both will use this fight as the stepping stone toward that big job.

Shrewd observers figure that no matter how important Harry L. Hopkins may make his job as secretary of commerce it will be completely blanketed, as far as publicity is concerned, by national defense. In fact, some point out, the better job Hopkins does as secretary of commerce, the less publicity he will get. It isn't a page-one story to do something to smooth the path of business, or to lighten its load. But it's a first-page story to scare the country about the possibility of the dictators coming over here, from Johnson's angle, and it's also a first-page story to attack the munitions makers as inspiring all the ballyhoo for national defense, heavier taxes, and endangering getting this country into war—especially the latter. And that will be Clark's bid for the spotlight.

Widespread Feeling for

More National Defense

On the whole, congress is willing to go very far with the President on national defense. It doesn't think very much of the contention that this would provide employment, and therefore, lighten the relief burden. In fact congress will be told that the chief limit on the amount of money that can be spent for national defense is the scarcity of skilled mechanics. Unemployed, more or less shiftless individuals can be of little use in an armament program. And actually the shipyards, the gun plants, and the airplane factories are all reporting that they are having the greatest difficulty in getting the men they need right now.

As a matter of fact, it is common knowledge in Washington that the navy would like to put a great many more men to work immediately in its gun factory, but simply cannot get properly trained men.

But congress on the whole is for more national defense. More sections of the country are aroused than ever before. Congressmen will be found voting for big defense appropriations who a few years ago were regarded as staunch little navy men, if not pacifists. The reason is simple. Their districts have changed, and they are voting in accord with the new sentiment.

HOUSEHOLD QUESTIONS

Use for Leftovers.—Leftover pieces of soap may be made into a jelly for laundry use. Leftover pieces of toilet soap make a nice jelly for a shampoo.

To Cream Butter.—Remove butter that is to be used in making cake from the icebox about one hour before you start mixing ingredients. It will then be much easier to cream it.

Care of Steel Wool.—Steel wool will last so much longer if dried in the sun or on the radiator after each using. This will prevent its rusting and becoming unpleasant.

Save Coal.—Put a lump of chalk on the fire. The chalk gets red hot, throws out a great heat and can be used many times.

Sandwich Fillings.—Honey combines well with peanut butter, cottage cheese, chopped dried nuts or fruit to make sandwich fillings.

Newsprint Stains.—To remove stains caused by newspaper print from washable material, sponge it with warm water and soapsuds and rinse thoroughly in clear warm water. If unwashable, sponge with even strokes with a small sponge dipped in ether. If the stains are old, soak them 10 minutes in kerosene before applying ether.

Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germ-laden phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

STARCH FOR STEEL—Manganese for American steel comes principally from far away places, but Cuban deposits, similar to those found in the United States, have been developed. This picture shows the vital steel-making material being loaded at a Santiago dock.

immediately turned to production of war materials in the event of an emergency. America has excellent machines and excellent mechanics to run them, but an army tank cannot be ordered one day and secured the next. Special skills are required for munitions manufacture. The man who does the work of checking the breach end of a 75-mm howitzer with a "concentricity thread ringage," which measures down to one ten-thousandths of an inch, for example, needs five years of special training. Other special jobs require training periods of between one and four years.

America has no extensive munitions industry at the present time. Today the army manufactures most of its munitions in its seven arsenals, which supply little more than 5 per cent of wartime needs. And there is a great lack of skilled labor. During the depression few apprentices were trained; manufacturers today, faced with the prospect of munitions orders, say they are unable even to secure men to manufacture the necessary tools.

An essential part of the tremendous naval building program must be a program of "in service" training to provide skilled shipbuilders. The number of civil employees of

toys, submarine mines instead of steel safes, airplane metal stampings instead of pots and pans, cartridges instead of washing machines.

In order to "educate" industry for these necessary changes, congress at the last session authorized a five-year \$10,000,000 program of "educational orders." Extension of this program is regarded by the war department as essential.

The very foundation of a preparedness program is the supply of raw materials upon which the country must depend for production of all kinds of articles from gas masks to rifles; more than ever before in the history of the world the problem of national defense is an industrial problem, and raw material is the keystone of industry.

Arms Budget Increased. Current publicity has familiarized the man in the street with trends in rearmament. Index of the program is seen in unofficial estimates which place the national defense budget for the coming fiscal year, beginning July 1, 1939, at about \$1,300,000,000, or an increase of about \$250,000 over the preceding year.

The building program is at least outlined. The new congress may authorize plans of the army general

Nature Aided In Settlement Of America

Earliest Migrants Drove Towards Coast or Followed Interior Valleys

Prepared by National Geographic Society,
Washington, D. C.—WNU Service.

Like most major discoveries, the finding of America by its first settlers took place in easy stages. Shortly after the retreat of the last great ice sheet, some venturesome Asiatic wanderer, a prehistoric Columbus of name unknown, crossed the narrow strip of sea between East Cape, Siberia, and Alaska.

The crossing at that time could have been made on the ice, but it might also have been accomplished in skin boats or canoes, a feat not infrequently performed by Eskimos of today.

The Americas were not populated by descendants of these first discoverers. It is likely that through many centuries Asiatic people, responding to population pressure from the south and west, found this natural route into the American continent, just as successive streams of European immigration later penetrated inland from the Atlantic seaboard.

Archaeological evidence indicates that most of these migrants did not linger long in the far north but pushed southward along the coasts in their canoes, or followed the interior valleys.

So completely did they establish themselves that, when the Europeans arrived, the two continents, and practically all of the adjacent islands as well, were occupied from the Arctic coast to the extremity of Tierra del Fuego.

Nature Aids Indians.

From the fur-clad Eskimo of the frozen Arctic coast, living in his ingenious snow house, to the naked savage of the steaming tropical jungle of the Amazon basin, with his equally suitable palm-thatched home, the descendants of these first American immigrants demonstrated their adaptability in countless ways.

Thus the wandering bands of primitive Shoshoni, living in the

Chester Yellowhair, Navajo Indian youth, is typical of today's Arizona Indian. In the face of generations of pressure to abandon his Indianship the Indian is coming back.

thought and subtle shades of meaning. Their vocabularies were as complete as the experience of the speakers permitted, and the grammatical structure intricate and systematic.

The principal linguistic stocks north of Mexico are the Eskimauan, which includes the entire Arctic coast from Alaska to Greenland; Athapaskan, which includes Alaska and most of the interior of Canada west of Hudson bay, and reappears in Arizona, New Mexico, and western Texas; Algonquin, which stretches across southern Canada from the Rocky mountains to the Atlantic, thrusting south of the Great Lakes to Tennessee; the Iroquoian, which includes the valley of the St. Lawrence river and the regions around Lake Erie and Lake Ontario, south to northern Georgia.

The Shoshonean stock includes the Great Basin region and northern Texas; the Siouan takes in most of the Great Plains and parts of the Carolinas and Virginia.

The Mudkhogean stock covers most of the states of Mississippi, Alabama, Georgia, and Florida.

The varieties in physical type among the Indians were not so great nor so striking as the cultural differences.

All American Indians can be classified generally as belonging to the Mongoloid stock, to which the people of eastern Asia also belong.

The principal differences are in physiognomy, head form, and stat-

The Indian of today does not live the nomadic life of his forebears. Here a group of Santa Clara Pueblo Indians are making pottery at the doorstep of their home in New Mexico. The Indian population, according to government survey, is the most rapidly growing group in the country.

parched deserts of the Great Basin, found food in the sparse and spiny plants of the region. They knew the location of the scattered springs and how to capture edible grasshoppers and fly larvae from the lakes.

Among these simple bands, the only recognizable social unit was the family group.

While these and other primitive groups were warring a bare existence, the great civilization of the Maya developed and flourished for 1,500 years on the mountainous highlands of Guatemala, the tropical lowlands of the Motagua river, and among the thorny scrub of Yucatan.

The equally great Inca culture of ancient Peru arose on the arid desert of the Pacific coast and in the bare highlands of the Andes.

The Aztecs, shortly before the coming of the Spaniards, had succeeded in building up a mighty military nation in the temperate Valley of Mexico.

Wherever the early white explorers went, they found diversity in culture, adaptability to environment.

This variation is illustrated most strikingly by languages. North of Mexico alone, at the time of the conquest, there were more than 50 unrelated linguistic stocks, and 700 distinct dialects. These dialects differed from one another as English differs from German or French, and the linguistic stocks have nothing in common in vocabulary or grammatical structure.

It is evident, therefore, that numerous peoples of different origin had been isolated for long periods. Since phonetic writing was never developed in the New World, there was no means of stabilizing and holding together a language for any considerable time.

Vocabularies Are Complete.

All these native American languages were capable of expressing

Mind Over Matter

By STANLEY CORDELL
© Associated Newspapers,
WNU Service.

"THE mind," said Sam Williams, "is always the victor over matter. The mental condition of a man determines, unconsciously, what his physical condition shall be. A person unknowingly abuses his physical structure because he won't think right."

"That's an old chestnut, Sam," I grinned. "Can't you think of something new to tell us?"

Sam smiled good naturedly. "Maybe," he said, "I can. You recall that salesman who was in the other day trying to sell you a new line of goods? He misrepresented the merchandise, told you it was a far better grade than he knew it to be. And it was plain that the chap himself believed everything he told you. That was because he'd repeated the same story so many times."

"Now, the chap I'm going to tell you about wasn't so different from that salesman. He went by the name of Brown; owned a small clothing store over in Bolton. Brown was a bright youth, good looking and popular among the younger set. He had a big following at first, and cleaned up a tidy profit. But after a while the number of his customers began to fall off. You see, Brown became known as a man who would promise most anything in order to make a sale."

"At the end of the second year the youth's profits had diminished 50 per cent."

"Thoughts of bankruptcy made him weak with humiliation. It occurred to him that there was a bare possibility that he might sell the business. With this in mind he journeyed to a neighboring town and inserted an advertisement in the local newspaper."

"As fate would have it a prospect showed up within the next three days. Brown, with keen foresight, had arranged matters so that conditions in the store would appear prosperous. During the brief period that the prospect, Wilson, by name, was in the store, at least a half dozen customers entered and made purchases."

"There was just one thing that rankled in the buyer's mind. He couldn't understand why Brown should wish to sell a business that was paying so well. And, in open frankness, he asked the proprietor for reasons."

"Brown smiled sadly, lowered his voice and explained quietly that his wife's health demanded a change of climate. A light touch of tuberculosis."

"Wilson was touched. He expressed his sympathy, and brought the conversation back to the business at hand. Would Mr. Brown consider a cash offer for a figure slightly lower than the original?"

"Mr. Brown considered, sighed deeply and finally agreed. Inwardly he was elated. The 'figure' was far greater than he had hoped for."

"Wilson returned to his own town where he owned considerable property on which he planned to raise the necessary funds, with a promise to write within a few days as to the success of his activities. Brown spent the next week in planning for a hurried departure."

"A letter arrived from Mr. Wilson stating that he was having some difficulty in raising the money."

"Another week passed. Brown began to lose hope. He wrote a letter, stating that he had made reservations to leave for the West with Mrs. Brown within the next week. Couldn't Mr. Wilson borrow the money somewhere else?"

"Wilson was apparently impressed by the urgent tone of Brown's request, and by pity for poor Mrs. Brown, who, in reality, was a robust person of some 130-odd pounds, and who had never been ill a day in her life."

"Fearful that Wilson might get discouraged at his failure to negotiate a loan, and back down on the deal, worried over the financial condition of his business, which was getting perilously close to the end of its rope, Brown made a hurried trip to Wilson's home town. He consulted with the buyer, desperately described his wife's condition as dangerous, and again urged Wilson to hasten matters."

"Wilson, now feeling obligated to take over Mr. Brown's business, managed, by offering a bonus and a tremendous rate of interest to raise the cash. The deal was consummated."

"Elated beyond words, Brown stuffed the money into his pocket and rushed home to tell the joyful news to his wife."

Sam paused and knocked the ashes from his pipe. The ending of the tale, I thought, was rather easy to apprehend.

"And I suppose," I said, "when Brown arrived home he found that his wife really had contracted tuberculosis—as a result of Brown's concentration on the subject?"

"No," said Sam, "she didn't." He looked at me and smiled. "It was Brown who contracted it."

Gelatin Used in Ice Cream

Gelatin is used extensively in the manufacture of ice cream in quantities ranging from 0.2 to 0.5 per cent to insure certain physical properties, notably smoothness and resistance to melting. It is referred to in the ice cream industry as a stabilizer.

WHAT to EAT and WHY

C. Houston Goudiss Suggests the Part Played by Diet In Helping to Prevent the Common Cold

By C. HOUSTON GOUDISS

STATISTICS compiled over a period of years indicate that during the months of January and February, the number of colds and other respiratory infections continually mounts. Usually a peak is reached in late February or early March.

It is during the next eight or ten weeks, therefore, that, in the light of past experience, more adults will lose time from their work and more children will be absent from school, as a result of colds, than at any other period during the year.

The Tremendous Cost of Colds

It has been estimated that colds cost the United States more than a billion dollars a year. That figure, of course, is only an estimate. It merely attempts to gauge the dollars and cents lost in wages; and in the money spent in an effort to overcome colds. It does not take into account the discomforts that may be caused by this common complaint. Nor does it allow for the possible after-effects of a neglected cold.

Cause and Cure Obscure

No scientists today are willing to state what causes colds or how they may be cured. Large numbers of clinical and laboratory tests have been performed throughout the world in an effort to discover why we catch cold. Numerous records have been made concerning colds in men, women and children, as scientific workers have patiently and persistently tried to investigate the cause of colds. They have sought even one clue that might help us to outwit this common enemy!

Various theories have been advanced. Many have been discarded, and others have been considered sufficiently plausible to investigate further. There is one point on which many authorities agree: that is a belief that a cold is caused by a germ so small that it cannot be seen by the most powerful microscope.

It has been suggested by a number of competent observers that whenever the weather becomes damp and raw, and wherever crowds of people gather together, the cold germ may find victims among those whose resistance is low.

Prevention Rather Than Cure

Though we may not know precisely what causes a cold, nor how to cure it once we have been

stricken, we can and should help to build up bodily resistance, so that we develop strong reserves against the unknown cold germ and any others lurking about.

Inasmuch as a program for building up bodily resistance is one which encourages greater health and longevity, it is a program which all forward-looking homemakers should put into effect for their families.

Helping to Build Resistance

Such a program should include proper food, normal elimination, adequate exercise and sufficient rest and sleep so as to avoid fatigue. Just as food plays an important part in helping to promote growth, maintain health and increase the chances for longevity, so does it have a stellar role in the battle to prevent colds.

The Right Food a Strong Weapon

The well balanced diet, as I have previously stated, is one that is built, first of all, upon a firm foundation of the protective foods—milk, eggs, fresh fruits and vegetables. These are the foods that are richest in minerals and vitamins—substances which help to regulate body processes and help to guard against deficiency diseases.

There should be adequate protein to allow for the demands of growth and to help repair worn-out body tissue. There should be enough bulk or cellulose to help promote normal elimination. And there should be a sufficient amount of water and other fluids; for water flushes the countless channels of physical existence, as it passes from the body through the lungs and skin, as well as through the kidneys and the large intestine.

Significance of Vitamin A

Nutrition authorities are frequently asked, "Is there any specific food substance that may be said to be particularly helpful in preventing colds?" or "Is it true that vitamin A is especially valuable in combatting colds?"

Here is one answer to both questions: scientists have found evidence that vitamin A, which occurs most abundantly in milk and other dairy products, and in

green, leafy and yellow vegetables, helps to keep the epithelial cells of the mucous membranes in good condition, so that the natural defenses are preserved.

One of our outstanding nutrition authorities has gone on record as saying that in his opinion, at least four times the amount of vitamin A required for apparent health may bring a good return in health protection.

It is important to remember, however, that the best single piece of advice that can be given regarding diet is to eat moderately of well balanced meals.

Don't Overeat

In addition to partaking adequately of the protective foods, those who are endeavoring to plan a program of living that will help to prevent the common cold should likewise guard against overeating.

One should also do everything possible to avoid coming in direct contact with persons who have colds.

Through a routine of correct eating and sound habits of hygiene, the homemaker can go a long way toward helping her family to prevent colds. Remember that here, especially, an ounce of prevention is worth perhaps more than a pound of cure!

ADVERTISING

... is as essential to business as rain to growing crops. It is the keystone in the arch of successful merchandising. Let us show you how to apply it to your business.

Sew for Now and Spring

IT'S fun to sew during the long winter evenings, when you use these simple patterns, each including a detailed sew chart, so that you can follow them with no trouble, and listen to the radio at the same time. Right now, the stores have grand bargains in fabrics, too, so it's certainly the time to get some sewing done. You can make such pretty things, and save so much money, by doing it.

Two-Piecer for Girls

Here's a charming dress that girls in the 10-to-16 size range will love for school, and it's so easy to do that those who like sewing can make it themselves. The basque blouse hugs in (by means of darts), to make the waist look small. The skirt has such a pretty flare. Both can be worn with other things. Choose wool crepe, flat crepe, silk print or moire.

Three Pretty Aprons

Make this dainty, useful set of aprons now, and have it ready when spring weather arrives and people begin to drive up unexpectedly for meals. You'll enjoy having the aprons right now, too, when you serve refreshments to your club. This set is a nice party prize, and a gift idea for your friends who are brides-to-be. It includes two practical pinafore

styles, both made so that they cannot slip off your shoulders when you have your hands in the dish water. Also, a sweet little frilly tie-around. Choose dimity, linen, percale or dotted Swiss.

The Patterns.

No. 1657 is designed for sizes 10, 12, 14, and 16 years. Size 12 requires 1½ yards of 39 inch material for long-sleeved blouse; 1½ yards for short-sleeved blouse; ¼ yard for contrasting collar and 1½ yards for skirt.

No. 1639 is designed for sizes 32, 34, 36, 38, 40, 42, 44 and 46. Size 34 requires, for apron No. 1, 2 yards of 35 inch material and 12 yards of braid. For apron No. 2, 2½ yards of 35 inch material and 9 yards of braid. For apron No. 3, 1½ yards of 35 inch material and 3 yards of pleating.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

Debunking the "Heroes"

The designation "Public Enemy No. 1" has done much toward taking the self-conceit out of criminals who thought they were daring heroes.

The right angle from which to approach a difficulty is the try-angle.

The worst prison the world has to offer is enforced association with a circle of narrow minds.

A chiseler is a born chiseler. Cheating in one situation means cheating in all. Sometimes we think that deceit is the deadliest of the deadly sins.

Consider Your Influence

Others do much toward making your life, and you are equally influential in that of someone else.

The only friends we ever had that we really cared for, we did not criticize. That is why we had them.

Charity seems cold when one gives because he ought to instead of because he likes to.
